

FAROL HOTEL

on the water

★★★★★

CASCAIS | PORTUGAL

Farol Hotel is not only recognized for its very high standards of our service and products, but also for the excellence and passion we put into all the experiences we offer to our guests and customers.

More than ever, we offer strict compliance with all hygiene and safety standards as our top priority.

We guarantee you the security and safety necessary by following the recommendations and updates from DGS – Portuguese Health Organization.

Farol Hotel strongly invested in providing a suitable training for all the employees regarding Covid-19 and the importance of complying with all the rules in force. According to DGS rules, wearing a mask is currently not mandatory (this rule may change, so make sure you are aware of the latest government regulations when traveling).

The front-desk has protective masks that you can request. Farol Hotel provides several disinfectant dispensers all over the hotel for the guests' protection. We reinforced the frequency of cleaning common spaces and WC's, paying special attention to door handles, tables and chairs, elevator buttons, among others.

We thank you for your trust and look forward to welcoming you soon in the near future!
